

Screened Topsoil | \$42.00

Screened organic topsoil free from debris or harmful chemicals. Uses: final grading; lawns; installation of new plants - it's dirt, you can grow in it!

Item 4 | \$40.00

A blend of crushed stones measuring up to 1" in diameter along with dirt and sand. Uses: driveways, parking areas.

River Rock | \$84.00

2" tumbled stones that resemble what you might find in a creek bed. Uses: as a permeable alternative to mulch in landscape beds; in swales and dry creeks; as an alternative finished surface for surface drains.

Unscreened Fill | \$20.00

A mix of low grade soils, sands, and miscellaneous organic, stone, and concrete material. Uses: rough grading; fill; an alternative to screened topsoil for customers willing to pull out debris.

3/4" Drainage | \$38.00

Also known as 1s + 2s or #57, drainage stone consists of 3/4" angular stones without any aggregate, creating empty space between the stones. Uses: drainage projects like surface drains; as a base for hardscape surfaces.

Pea Gravel | \$48.00

Small-grade smooth, tumbled stones in a variety of colors. Uses: walkways; patios; as an alternative to bare earth in spaces where grass won't grow (i.e., under decks, porches).

Compost \$46.00

Decomposing plant matter & other organic material free from pesticides or herbicides. Our supply is 'finished', meaning it's at the last stages of decomposition. Uses: enriching soil for gardening or blended with screened topsoil.

1/4" Chip | \$52.00

1/4" angular stone pieces with empty space between, allowing water through. Uses: as a base for traditional or permeable paver applications.

Black Mulch \$40.00

A dyed alternative to natural brown wood mulch. Uses: in landscape beds to retain moisture, insulate roots, and keep down weeds; on mulched walkways.

Stone Dust | \$46.00

Stone dust is the byproduct of crushed stone production, consisting of fine, dust-like stone particulate. Uses: as a base for laying pavers, stone, or walls.

Natural Brown Mulch \$36.00

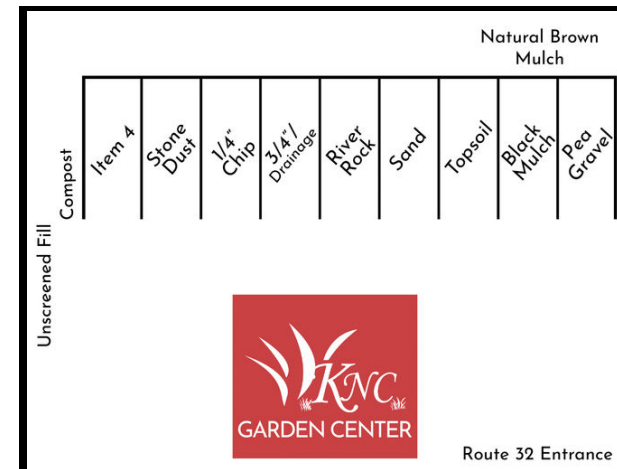

Wood mulch free from any dyes or additives. Uses: in landscape beds to retain moisture, insulate roots, and keep down weeds; on mulched walkways.

Sand | \$40.00

Course concrete sand. Uses: as a base for laying pavers, stone, or other hardscape materials.

- Conglomerate Boulders | starting at \$75.00 ea.
- Brown Boulders | starting at \$50.00 ea.

BULK MATERIAL CALCULATIONS

1 cubic yard = 27 cubic feet
 1 cubic yard = ~1.5 tons (soil, sand, aggregate, stone).
 For all bulk material (except 2" river rock), 1 cubic yard covers approximately 100 sq. ft., or a 10' x 10' area at 3" depth.

BULK MATERIAL DELIVERY

Delivery costs vary based on location, volume and type of material.

Delivery costs are not limited to, but typically range from \$25 - \$150.

Please provide an exact delivery address with your inquiry for a precise delivery quote.
