

Screened Topsoil | \$42.00

Screened topsoil free from debris or harmful chemicals.

Uses: final grading; lawns (planting grass seed); installation of new plants (best if combined with compost)

Item 4 | \$40.00

A combination of blended aggregate material consisting of stone dust & crushed stone ranging in sizes 1/4", 5/8", 3/4". Uses: driveways, parking areas. Great for compaction applications.

River Rock | \$88.00

2" tumbled stones that resemble what you might find in a creek bed. Uses: as a permeable alternative to mulch in landscape beds; in swales; and as an alternative finished surface for surface drains.

Unscreened Fill | \$20.00

A mix of low grade soils, sands, stone, and concrete material. Uses: rough grading; fill; an alternative to screened topsoil for customers willing to pull out debris.

3/4" Drainage | \$38.00

Also known as 1s + 2s or #57, drainage stone consists of 3/4" angular stones without any aggregate, creating empty space between the stones. Uses: drainage projects like surface drains; as a base for hardscape surfaces.

Pea Gravel | \$51.00

Small-grade smooth, tumbled stones. Uses: walkways; patios; as an alternative to bare earth in spaces where grass won't grow (i.e., under decks, porches, around firepits) Comes unwashed.

Compost \$46.00

Decomposing plant based matter. Our supply is 'finished', meaning it's at the last stages of decomposition. Uses: enriching garden soil & combined with topsoil is great for raised planting beds.

1/4" Chip | \$52.00

1/4" angular stone pieces with empty space between, allowing water through. Uses: as a base for traditional or permeable paver applications.

Black Mulch \$40.00

A dyed alternative to natural brown wood mulch. Uses: in landscape beds to retain moisture, insulate roots, and keep down weeds; on mulched walkways.

Stone Dust | \$46.00

Stone dust is the byproduct of crushed stone production, consisting of fine, dust-like stone particulate. Uses: as a base for laying pavers, stone, or walls.

Natural Brown Mulch \$36.00

Wood mulch free from any dyes or additives. Uses: in landscape beds to retain moisture, insulate roots, and keep down weeds; on mulched walkways.

Sand | \$40.00

Course concrete sand. Uses: as a base for laying pavers, stone, or other hardscape materials.

BULK MATERIAL CALCULATIONS

1 cubic yard = 27 cubic feet
